Mr. Robert Gates
Deputy Director for Intelligence
Central Intelligence Agency
Washington, D.C. 20505

Dear Mr. Gates:

Enclosed is a copy of a June 8 letter from Secretary Edwards notifying the DCI of the consolidation of all Department of Energy intelligence functions into the Office of International Security Affairs (ISA) under the Assistant Secretary for Defense Programs (DP), and designating Herman Roser DOE Principal Senior Intelligence Officer (SIO).

I have agreed to become the Director of the Intelligence Division in ISA/DP and Assistant to the SIO because I believe the position is consistent with the functions I originally came to DOE to fill. In addition to continuing to support several other Assistant Secretaries, including the Assistant Secretary for International Affairs, the Intelligence Division includes DOE's substantial intelligence production in the areas of nuclear weapons and technology.

Sincerely,

Ronald L. Smith
Director
Division of Intelligence
Office of International
Security Affairs
